NIHČE NI OTOK/NOBODY IS AN ISLAND

We are a school that lives in nature and with nature. There is a beehive next to our school. A beehive front is a traditionally painted wooden board that closes a beehive and that beekeepers use to tell beehives apart.

For the art competition, we have replaced the wooden board with A4 paper, and the technique is limited to the printmaking technique.

The MOTIF of this year's competition is: NOBODY IS AN ISLAND. Everyone and everything is connected; we have always been connected with each other (through communication, family, community, tradition...), we are connected with plants, animals, but also stones, planets and everything that exists and surrounds us.
